

Toluwanimi Agboola

Web developer

Phone: [\(234\) 8167469166](tel:(234)8167469166)
Email: toluwanimiagboola@gmail.com
GitHub: github.com/toluagboola
Portfolio page: toluagboola.github.io

Skills

HTML
CSS
SCSS
Git
React
NodeJS
JavaScript (ES6)
Great communication and interpersonal skills.

Experience

JavaScript Developer

Your Internet Pages (YipOnline), 2021

I was responsible for implementing the front-end logic that defines the behavior of the visual elements of the company's web application. I was also responsible for connecting this with the services that reside on the back-end.

Projects

Todo List App

Built with Node.js, Express and MySQL

A sortable todo list application that can add, mark as done and delete tasks.

Game of Life

Built with React

A cellular automation, zero-player game devised by John Conway whose evolution is determined by its initial state.

Unsplash Photo Search App

Built with HTML, CSS and JavaScript

An app for searching for high resolution photos from Unsplash.

Stellar Photos Website

Built with HTML and SCSS

The landing page for Stellar Photos, a browser extension.

Simon Game

Built with HTML, CSS and JavaScript

A simple memory game built with JavaScript as a personal project.

Education

University of Ilorin - B.Sc Microbiology

FreeCodeCamp - Responsive Web Design Certification

Interests

I am passionate about tech, web development and programming. I also have a keen interest in music, anime, health and fitness, literature, art and drama. I love singing, dancing, travelling to new places, meeting new people and listening to people's contributions.

Languages

English, Yoruba and a little French.
